PROFESSIONAL SUMMARY

Full Stack Developer with **2+ years of experience** developing scalable web applications using **React.js, Node.js, Express.js, MongoDB, PHP, and MySQL**. Proven track record of building production-grade platforms end-to-end, from RESTful API design to deployment, with a focus on performance, security, and clean architecture.

TECHNICAL SKILLS

Languages: JavaScript, PHP, HTML5, CSS3

Databases: MongoDB, MySQL, PostgreSQL

Frontend: React.js, Next.js, Bootstrap, Tailwind CSS, jQuery **Tools:** Git, GitHub, Docker, Vite, Postman, phpMyAdmin

Backend: Node.js, Express.js, REST APIs, JWT Authentication

EXPERIENCE

Gyanmanjari Innovative University

Mar 2024 – Present

Full Stack Web Developer

Bhavnagar, Gujarat

- Started as a **Free Intern** (Mar 2024 – Apr 2025) and was promoted to **Full Stack Web Developer** based on consistent performance and delivery.
- Develop and maintain full-stack web applications using **React.js, Node.js, Express.js, PHP, and MySQL**, from responsive UI to RESTful API and authentication design.
- Manage MySQL databases and handle end-to-end production deployments on **Hostinger**, optimizing performance across the stack.

PROJECTS

ERP Web Application – University Management System | *React.js, Node.js, Express.js, MySQL, JWT*

- Developed a production-scale ERP platform managing academic structures, HR modules, admissions, and administrative workflows.
- Implemented dynamic module routing, role-based access control, JWT authentication, analytics dashboards, and PDF/CSV/Excel export features.
- Designed and implemented **100+ scalable REST API endpoints** with enhanced backend architecture for secure, high-performance enterprise use.

ApplyAnywhere – AI-Powered Job Application CRM | *Next.js, TypeScript, Supabase, Gemini API, Tailwind CSS*

- Built an AI-powered job application platform that extracts structured job data from text and screenshots using the Gemini 2.5 Flash API.
- Automated personalized recruiter outreach by generating tailored cover letters, emails, and WhatsApp messages based on job requirements and candidate profiles.
- Implemented secure credential management with AES-256 encryption, integrated Supabase authentication, and built analytics dashboards to track applications.

Admission Website – GMU | *PHP, MySQL, JavaScript, Bootstrap, FastRoute, PHPMailer*

- Developed a high-performance university admission portal enabling prospective students to explore programs and submit online applications.
- Built a custom MVC architecture with efficient routing, role-based access, and optimized backend modules for admission management.
- Improved application performance, **cutting page load time from 20+ seconds to under 3 seconds** through streamlined database queries, lazy loading, and Core Web Vitals optimization.
